

Certified Concordance® FYI™ ASP

Bring your Litigation Teams Together

Real-time Online Case Access Anytime, Anywhere

To control costs, minimize risk and maximize internal resources, litigation teams need a reliable, cost-effective and experienced partner to host their discovery data. With a Certified Concordance® FYI™ ASP, you can bring litigation teams, their global branch offices, expert witnesses and co-counsel together to review critical litigation documents and collaborate online with confidence.

The combined strength of the award-winning Concordance FYI software and the expert technology services offered by Certified FYI ASPs helps you control risk more easily, reduce litigation costs and efficiently manage your discovery teams. By choosing Certified FYI ASPs, you can be certain that they've undergone a thorough technical review and offer the highest degree of security and product knowledge available.

Top 5 Reasons to Select a Certified FYI ASP

1. Highly secure log-in ensures exclusive access
2. Award-winning interface reduces review time
3. Gain peace of mind by hosting with a Certified ASP
4. Greater cost recovery options
5. Reduce internal administration and infrastructure costs

Secure, Easy-to-use Online Review

In today's rapidly changing litigation environment, success depends on the speed at which you can access and organize key discovery information. Law firms, corporations and government agencies that can extend the reach of their discovery to reviewers wherever, whenever and however they are needed, gain a strategic advantage.

Certified FYI ASPs employ the award-winning FYI Reviewer for online review. FYI Reviewer boasts a highly intuitive interface to reduce the learning curve, so your team can hit the ground running.

FYI Reviewer Features

- Built-in Image Viewer: quickly retrieve, view, and annotate scanned images
- Multi-level Tag Foldering: group facts by category for quick retrieval
- Intuitive User Interface: ideal for the uninitiated
- Streamlined Case Organization: easily find matters and documents
- High-Speed, High-Performance: built on the tried and true Concordance engine
- E-mail and E-discovery Repository: quickly review native files
- Simple Search in the style of the Google™ search engine: perfect for your techno-phobic users
- Powerful Right-Click Features: utilize all your favorites; Tally, Send to Excel®, etc.
- Search Multiple Databases Simultaneously: cut down on review time
- Multi-Select Records, Drag & Drop Tagging: tremendous timesavers
